* The 15" effort should replicate game intensity and ideally pattern of transition from deep defense, out to a non-contested mark on the wing followed by quick centering ball into the corridor finishing with deep forward entry.

Note: The 'Jog' in above fartlek sets should be considered how you float within the game such as easy lateral uncontested possessions when team running down the clock. If in doubt, consider the 'easy' part of billat running sets and that's the level of effort.
