

BEAR DRILL

Decision Making

This is a decision-making drill with the emphasis on slowing down the process and executing a decision if required.

Minimum of 3 helpers and 1 umpire.

Umpire starts 10-15m back on a line (not necessary to be boundary line). Ball is to be kicked towards a slip cordon (A&B). A&B take the ball near the line and umpire determines decision.

Adding layers of complexity; Umpire is facing other direction and turns on a prompt. Or ump can be on the move.
